

March 2011

I have just had my kitchen extension completed by André and his team and I am delighted with the quality of his work and the finished build.

André was always on site on time and showed total professionalism from start to finish.

I was given a schedule of works so that I fully understood each stage of the process. This completely alleviated any stress of living in a property while building works were taking place. The whole project went very smoothly and completion was exactly as scheduled.

The whole team were always courteous and polite and I cannot recommend André and his team enough.
